

THE VENDETTA

*Every match you've ever played is on the record.
Each event it names your enemy — and pays you
extra for taking them down.*

WHO YOU FIGHT

You don't pick your rival. The record does.

Before each event the system reads your full match history and assigns you a **Vendetta** — the fiercest matchup it can find among the players in the room. It arrives in one of three grades.

SWORN RIVALS

You've clashed again and again. The history runs deep and the score is never settled.

BAD BLOOD

Some history between you — the best grudge available among today's field.

NEW BLOOD

No history yet. A fresh rivalry, drawn at random, waiting to be written.

HOW YOU SCORE

Every match you play is worth points.

One currency — **Reckoning Points (RP)** — and four lines of rules. No proxies, no waiting on anyone else's result.

YOUR NIGHT

12 RP

Same maths at every event, and it all stacks up across the season.

THE FINE PRINT

Three things worth knowing.

♣ MEET AGAIN, SCORE AGAIN.

Swiss round or Top Cut — every time you and your Vendetta land at the same table, the **+2** is live again. Nothing is capped.

♦ NO RIVAL TODAY? YOU STILL SCORE.

Odd field, rival dropped, or you rolled in late — your wins are worth the same **3 RP**. Only the bonus needs a declared Vendetta, so show up early and prepared to get one.

× BYES NEVER SCORE.

A bye isn't a fight. It earns no points and doesn't touch your record — for you or your rival. Only battles at the table move the board.

WHERE IT ALL LANDS

One board. One crown.

Every event adds to your season total — nothing resets, nothing decays.

THE RECKONING

Ranked on Reckoning Points, with your match record and Vendetta wins shown alongside so you can see how a total was built.
